

# VersaTech: FDA Story

## Company Introduction, Strengths and Benefits

Again, you can't connect the dots looking forward; you can only connect them looking backwards. So you have to trust that the dots will somehow connect in your future. You have to trust in something - your gut, destiny, life, karma, whatever. This approach has never let me down, and it has made all the difference in my life.

(Steve Jobs)

# Who We Support

# Information Technology

**Our mission at VersaTech is to provide high-end IT services and solutions to our clients that are unmatched in the Industry.**

**We utilize an agile approach that offers a quick and cost-effective way to bring flexibility and to integrate technologies seamlessly.**

**We specialize in:**

- **Custom Software Development**
- **Cloud Solutions**
- **Big Data Analytics**
- **Cybersecurity**

## Medical Research

We support a newly created Defense research and rehabilitation program for Traumatic Brain Injury (TBI). Our staff provides a continuous assessment of unmet needs for individuals with TBI and cognitive disorders. In collaboration with stakeholders, we develop projects and initiatives to close the service gaps and meet those needs.

## Policy Writing

We understand the complexities of regulations within the healthcare industry and support clients in the area of policy writing so their medical staff can provide the highest levels of quality care to patients.

## Medical Logistics

VersaTech supports our client's logistics needs by performing inventory and financial management procedures. We handle the ordering, receiving, and storing of supplies while performing quality control checks.

## Medical Translation

We provide on-site interpretation services in over 95 languages and American Sign Language. Our highly qualified interpreters facilitate mutual levels of understanding, respect and communication between patients and medical professionals.
